---

A film by Jean-Jacques Andrien

*World premiere at the Mannheim International Film Festival 1984 and awarded with:*

- The Ducate of the City of Mannheim  
"for the excellent realization"*
- The "Volkshochschul-Jury" recommended  
"Mémoires"  
"for continued adult education":*

*"Authentic images, a thrilling camera, an economical comment and a dynamic editing join together to make "Mémoires" a film outstanding in its form.*

*In "Mémoires" the conflict between the flemish and the walloon population in the aerea of the Fourons shows impressively that fanatic rascism and undemocratic nationalism are not only out-of-date phenomena of history or weak moments of non-european countries, but still occur today even in our nearest neighbourhood - also with us?"*
